SUMMARY

Results-driven Statistics and Computer Science undergraduate at the University of Kelaniya with hands-on experience engineering scalable web and desktop applications. Blends rigorous data-analysis capabilities with robust full-stack execution using Java, PHP, JavaScript, and Python. Eager to deliver high-impact code and analytical precision to a Software Engineering Internship.

EDUCATION & CERTIFICATIONS

University of Kelaniya

[Expected Graduation: April 2027]

Bachelor of Science in Statistics and Computer Science

Foundations of Project Management

[Issued Feb 8 , 2026]

Coursera

EXPERIENCE

Trainee, Peoples Bank

[May 2023 – September 2023]

- Contributed to core banking operations and streamlined daily workflows within a high-stakes corporate environment.
- Applied structured problem-solving and cross-functional collaboration to hit operational targets and support team deliverables.

PROJECTS

Fresh Food Management System (FFMS)

[HTML/CSS/JavaScripts/PHP/MYSQL | GitHub : FFMS | Live]

Web-Based Platform

- Engineered a full-stack supply-chain platform connecting farmers, sellers, and transporters to mitigate food waste caused by coordination gaps.
- Developed role-specific dashboards featuring real-time pricing transparency and delivery tracking utilizing PHP, MySQL, and JavaScript.

School Academic Management System (SAMS)

[C#/.NET WinForms/MYSQL | GitHub : SAMS]

Desktop Application

- Architected a role-based desktop application for Admins, Class Teachers, and Subject Teachers with tailored access controls.
- Eliminated manual mark entry bottlenecks by implementing secure authentication pipelines and bulk Excel data ingestion via C# and MySQL.

Personal Portfolio Website

[HTML/CSS/JavaScripts/PHP/MYSQL | GitHub : Link | Live]

Web-Based Platform

- Designed and deployed a responsive, feature-rich portfolio equipped with a dark-mode interface and a hardened admin panel secured by bcrypt hashing, CSRF tokens, and strict session management.

Impact of Academic and Lifestyle Factors on Mathematics Grades

[R/ Power BI]

Statistical Modelling

- Executed exploratory data analysis and statistical modeling in R to identify primary behavioral indicators driving mathematics performance.
- Built dynamic Power BI dashboards to translate complex statistical regression outputs into visual executive summaries.

Impact Analysis of 2024 Non-Academic Strike on Science Undergraduates

[R/ Exel]

Sampling Survey

- Designed a quantitative impact-assessment survey targeting academic, operational, and psychological strike disruptions across undergraduates.
- Cleaned and structured raw survey data in Excel, applying statistical techniques in R to derive actionable empirical conclusions.

TECHNICAL SKILLS

Programming & Scripting: Python,Java,R, SQL, C#, PHP, JavaScript, HTML5,CSS3

Data Visualization & Analytics: Power BI, MS Excel, Statistical Modelling

Databases & Tools: MySQL, .NET WinForms, SHA-256 Hashing, Git
